Annex C Services

Table of Contents

1	General.....	3
2	The Services	4

1 General

- 1.1 This Annex sets out the service packages supplied by Omantel.
- 1.2 This Annex is structured containing Sub Annexes. Each Sub Annex contains a service or group of linked services.
- 1.3 The Services listed in Clause 2 below and covered under this Agreement are subject to feasibility and availability, taking into consideration the following:
 - (a) Omantel's anticipated requirements for the next three (3) years, and such requirements shall be substantiated on request by the TRA;
 - (b) Security and confidentiality requirements or restrictions imposed on Omantel by Governmental Agencies; or
 - (c) In case Omantel plans to decommission the requested Service within three (3) years from the date of the request. For the avoidance of doubt, in such cases the Requesting Party shall be notified of the proposed decommissioning date and may proceed with its order. However, it shall confirm in writing to Omantel that it has become aware of the decommissioning date and that it will be required to vacate the relevant place at that time and shall do so, without any delay on notice being served on it by Omantel.
- 1.4 If any Service requires any Ancillary Services or Services to complete the required setup of the respective Service, then such Ancillary Service or Services shall be ordered separately.
- 1.5 The Services listed in Clause 2 below are as defined in the Access and Interconnection (A&I) Regulation issued by the TRA on the 16th of April 2016. This list is subject to revision in case new A&I Service is added in the regulation. Any new regulated A&I Service has a regulatory process which includes but not limited to service definition, description and sector consultation initiated and finalized by the TRA. After this process and based on the TRA direction, Omantel will draft a separate Sub Annex which includes the service description, terms and conditions, ordering process, termination, forecast, tariff and delivery timelines.

2 The Services

Sub Annex	Service	Version
C-FA 01	Local Loop Unbundling (LLU)
